

SUBJECT INDEX TO VOLUME 34

JULY—DECEMBER, 1963

References are to page numbers. An asterisk denotes title and reference only

- Abscess, acute spinal epidural, differentiation from acute transverse myelitis, 391
 —, amoebic, of liver, detection by isotope scanning, 150
 —, intramedullary, of spinal cord, 391
 —, pulmonary, due to aspiration, 311*
- Acantholytic factor and ulcerative colitis, 91
- Accidents, automobile, in New York City, 336
- Acclimatization to hot humid tropics of Australia, 149
- Acetohexamide in diabetes mellitus, 39, 315
 — stable diabetes mellitus, 243
- Acetophenazine in chronic anxiety and tension, 278
- N-Acetylcysteine, effect on viscosity of tracheo-bronchial secretions in cystic fibrosis of pancreas, 53
- Achilles reflex, diagnostic test of thyroid dysfunction, 37
- Achlorhydria, histamine-fast, and iron absorption, 306
- Acidosis, diabetic, artificial kidney in, 178
 —, lactic, irreversible, associated with phenformin treatment, 315
 —, metabolism in children with severe cyanotic congenital heart disease, 52
 —, renal, primary infantile, decline in, aetiological implications, 193
 —, respiratory, new-type cuirass respirator in, 104
- Acromegaly, assessment of activity by augmented insulin tolerance test, 36
- ACTH, *see* Corticotrophin
- Adenocarcinoma of colon, ultrastructure of, 134
- Adenoidectomy in children, controlled study of effects, 263
- Adenovirus infection in childhood, clinical and epidemiological survey in Sweden, 55*
- Type 8, community-wide infection in U.S.A., 280
 —, epidemic keratoconjunctivitis due to, 280
- Adenotonsillectomy, premedication for, 59
- Adrenal cortex, cytoplasmic bodies in, in spirrolactone-treated patients, 209
 — function in old age, ascorbic acid and, 108
 — — — — women with idiopathic hirsutism, effect of corticotrophin infusion, 239
 — — — — overactivity in obesity and Cushing's syndrome, comparison of characteristics, 379
 — function in children, 119
 — haemorrhage associated with infections, occurrence and pathogenesis, 343
 — hyperplasia, congenital, due to disorder of 11- β -hydroxylation, 108
 — —, genetic analysis, 332
 — secretions in Cushing's syndrome and primary aldosteronism, 174
- Adrenalectomy in hypertension, gout and hyperuricaemia after, 318
 — influence on diabetic retinopathy, 38
- Adrenaline, effect on urinary excretion of sodium and water in normotensive and hypertensive subjects, 305
- Adrenaline infiltration during halothane anaesthesia, 59
 —, intravenous, in prevention of ventricular tachycardia and fibrillation, 25
- Adrenogenital syndrome, *see* Adrenal hyperplasia
- Agammaglobulinaemia, leukaemia and lymphoma in, 30
- Age, influence on iron content of bone marrow, 306
- "Agrosan GN" poisoning, 405
- Air pollution, effects on respiratory function, 121
 —, pulmonary anthracosis as index of, 121
- Airway resistance changes, evaluation of methods used in detection, 310
- Ajmaline in chronic atrial fibrillation, clinical pharmacological study, 368
- Albumin, intravenous, in hyperbilirubinaemia, experimental studies, 397
 —, serum, excretion in faeces in nephrosis, 378
- Alcohol, effect on certain psychological variables, 74
 — level in blood, influence of food and fluid intake on, 336
 — metabolism, effect of liver disease on rate of, 155
- Alcoholism, chronic, acute disturbances in, perphenazine treatment, 394
 —, —, aversive conditioning treatment, 394
 —, —, in young adults, cerebrovascular accidents in, 319
- "Aldactone A" in hepatic ascites, comparison with spironolactone, 139
- "Aldomet", *see* Methyldopa
- Aldosterone antagonism in treatment of oedema and ascites, significance, 73
 — antagonists in ascites in liver cirrhosis, 155
- Aldosteronism, primary, adrenal secretions in, 174
- Alkalosis, extracellular, in hypercapnia, 236
- Allergens, inhibition of immediate-type hypersensitivity response by direct suggestion under hypnosis, 189
 — of asthma, analysis of 5,187 cases, 219
- Allergy, 18, 82-3, 151, 219, 288, 357-8.
See also Neuroallergy
 —, bacterial, in childhood asthma and effect of vaccine treatment, 357
 —, cobalt contact, in industrial dermatoses, 335
 —, contact, experimental, cytological examination using skin window technique, 151
 —, experimental, in man, effect of posture on, 219
 —, γ -globulin and histamine combined in, 358
 — in children, prophylactic inoculation, 82
 — — — —, reactions after, 83
 —, plasma histamine concentrations in, 82
 —, repeated aerosol desensitization and spontaneous resensitization of newborn guinea-pigs passively sensitized *in utero*, 288
- Allergy to milk, demonstration of precipitating antibodies against single proteins in, 327
- N-Allylnoroxymorphone, narcotic antagonist, 8, 75
- Alopecia areata and totalis, "meladine" treatment, 48
- "Alvodine", intravenous, clinical evaluation, 407
- "Amethopterin", *see* Methotrexate
- Amino-acid content of serum in rheumatoid arthritis, 385
 — metabolism in kwashiorkor, 16
 — transport in phenylketonuric oligophrenia, 255
- Amino-oxyacetic acid, anticonvulsant properties in epilepsy, 251
- Aminophylline preparation, "delaminoph", clinical trial as bronchodilator, 375
- Amitriptyline in chronic depression, 46
- Ammonia content of blood and cerebrospinal fluid in liver disease, correlation with neurological disorders, 223
 — intoxication and liver disease, 66
 — metabolism, renal, in cirrhosis, relation of acute potassium depletion to, 293
- Amnion implantation in peripheral vascular disease, 23
- Amoebiasis, hepatic, liver function test in, 287*
- , intramuscular emetine in, effects on myocardium, 81
- Amphotericin-B in cryptococcal meningitis, prognosis, 10
- lotion in cutaneous moniliasis, 47
- Ampicillin in chronic bronchitis, comparison with tetracycline, 103
- "Amplivix", effect on response to anticoagulants, 299
- Amylase level in serum in diabetic coma, 241
 — — — —, electrophoretic study and patterns in pancreatic disease, 131
- Amyloidosis in rheumatoid arthritis, diagnosis by rectal biopsy, 384
 —, serum protein changes in, 354
- Anaemia, acute aplastic, in young people, 231
 — associated with rheumatoid arthritis, pathogenesis, 372
 —, erythrocyte enzymes in, 372*
 —, haemolytic, drug-induced, 233
 —, —, hereditary non-spherocytic, of pyruvate-kinase-deficient type, 233
 —, hypoplastic, possible transformation into leukaemia, 100
 — in Hodgkin's disease, 234
 —, iron-deficiency, histamine-fast achlorhydria and, 306
 —, —, in East Africans, epithelial changes and, 306
 —, —, iron-sorbitol preparation in, 168
 —, megaloblastic, due to folic acid deficiency, 373
 — — — —, tritiated folic acid in diagnosis, 232
 —, —, in Africans in Kenya, 149
 —, —, pregnancy, formiminoglutamic acid excretion in, 308
 —, — or transitional megaloblastic, after partial gastrectomy, 32

- Anaemia, megaloblastic, serum α -hydroxybutyrate activity in, 342
 —, —, urinary figlu test in, clinical usefulness, 100
 —, —, urocanic acid and formimino-glutamic acid excretion in, 233
 —, —, vitamin-B₁₂ and folic-acid deficient, differentiation between, 232
 — of pregnancy, "jectofer" treatment, 372
 — rheumatoid arthritis, evaluation, 232
 — scurvy, aetiological factors, 31
 —, pernicious, and other causes of vitamin-B₁₂ malabsorption, differentiation by simultaneous administration of gastric-juice-bound and free radioactive cyanocobalamin, 100
 —, —, association with diabetes mellitus, 39
 —, —, autoimmune phenomena in, serological overlap with thyroid diseases and systemic lupus erythematosus, 307
 —, —, cyanocobalamin-peptide preparation in long-term oral treatment, 307
 —, —, depot cyanocobalamin-complex preparation in maintenance therapy, 32
 —, —, diagnosis by single measurement of plasma radioactive cyanocobalamin, 32
 —, —, folic acid metabolism in, 372
 —, —, "heptafor" treatment, follow-up study, 306
 —, —, hereditary basis studied in cases in childhood, 32
 —, —, intrinsic-factor antibody in, 373
 —, —, lactic dehydrogenase activity of gastric juice in, 361
 —, —, oral cyanocobalamin treatment, 307
 —, refractory, a disease or a syndrome? 31
 — with and without severe congestive heart failure, correlation of clinical and haemodynamic studies, 231
 Anaesthesia, barbiturate, method of studying recovery after, 267
 —, electrical, brain temperatures in rabbit during, 266
 — for insertion of indwelling artificial pacemakers, 267
 — in children, changes in ventilation after removal of gastric contents, 266
 —, obstetric, influence on maternal morbidity, neonatal asphyxia, and perinatal mortality, 338
 — of newborn infants, artificial ventilation by respirator during, 338*
 Anaesthetics, 59, 125, 266-9, 338, 406-7
 Analgesia of limbs, production by intravenous regional analgesia, 125
 Anaphylaxis, mechanism in rat, 18
 "Ancillin", clinical and laboratory studies, 345
 Androgens in liver cirrhosis treatment, 293
 Aneurysm, cerebral arterial, anatomical variation, 3
 —, —, histopathological study, 131
 —, left ventricular, in young Africans, 294
 Angina due to tobacco smoking, 229
 — pectoris, diagnosis by two-step exercise electrocardiogram, 158
 —, —, evaluation of drugs in prophylactic treatment, 229
 —, —, glyceryl trinitrate in, 300
 —, —, hydroxychloroquine in, 300
 —, —, methylthiouracil in, 28
 —, —, relation to diaphragmatic hernia, 369
 —, —, severe, continuous prolonged heparin and oral anticoagulant therapy, comparison, 229
 Angiography, "angio-conray" as contrast agent in, 198
 —, cerebral, cardiovascular effects of contrast media in, 64
 —, —, in extremely high intracranial pressure, 386
 — in non-penetrating renal injury, 410
 —, post-mortem, of cerebral vascular system, 67
 —, —, —, correlation with clinical and pathological data, 67
 —, renal, technique, 410
 —, transbrachial percutaneous, of neck vessels in healthy men, 339
 Angiotensin, effect on digital blood vessels in normotensive and hypertensive subjects, 137
 —, pressor response to, bearing on pathogenesis of chronic renal hypertension, 344
 Anoxia, *see* Oxygen
 Antazoline hydrochloride in arrhythmia, 297
 — in arrhythmia, clinical and physiological effects, 228
 Anthracosis, pulmonary, as index of air pollution, 121
 "Antiban", *see* Sodium antimony dimercaptosuccinate, 173
 Antibiotics, antistaphylococcal, comparison *in vitro* and *in vivo*, 345
 —, effect on pathology of fatal bacterial endocarditis, 69
 — in bronchiectasis, 374
 — superficial impetigo, route of administration, 116
 — Whipple's disease, 22
 Antibodies to cow's milk proteins, presence and significance, 117
 Antibody formation against extracts of leukaemic and Hodgkin's disease tissues, 371
 — in Hodgkin's disease, 309
 Anticoagulant treatment and reticulo-endothelial system, studies with radioactive colloidal gold, 163
 Anticoagulants after myocardial infarction, relation of therapeutic level in blood to recurrent infarction and sudden death, 29
 —, effect of benziodarone on response to, 299
 — in atrial fibrillation, 298
 — cerebral thrombosis, 112
 Antihæmophilic globulin concentrate, human, in hæmophilia, 100
 Antimony dimercaptosuccinate in schistosomiasis mansoni, 150
 Antimony¹¹¹ sodium meso-2:3-dimercaptosuccinate, *see* TWSb
 Antiseptics, efficiency when acting on dried organisms, 72
 "Antistin", *see* Antazoline
 Anus, imperforate, with recto-urethral fistula, management, 261
 — sphincter, internal, manometric studies on normal physiology, neural pathways, and alteration in bowel disorders, 157
 Anxiety, chronic, acetophenazine treatment, 278
 —, hypnotically induced, effect of hydrocortisone on, 115*
 Aorta, *see also* Subaortic
 — atherosclerosis, correlation between radiological and pathological diagnoses, 62
 — coarctation, pathological and histological findings in, 301
 —, —, reserpine treatment, 301
 —, surgical treatment, effect on blood pressure, 301
 — with "parachute mitral valve", supravalvular ring of left atrium, and subaortic stenosis, 367
 Aorta stenosis, acquired, clinical and anatomical comparison, 26
 —, —, radiological changes in, haemodynamic significance, 297
 —, congenital, correlation of clinical severity with haemodynamic and surgical findings, 160
 —, diagnostic value of plain radiography in, 126
 —, induced hypothyroidism in, 225
 —, isoprenaline in evaluation, 367
 —, supravalvular, with mental retardation and peculiar facial appearance, 160
 — valve disease, acquired, open-heart operation for, 26
 — valvular atresia, 295
 — stenosis, acquired, radiological diagnosis, 409
 Aortitis, primary, causing renal artery stenosis and hypertension, 92
 Aortography, axillary artery approach to, 127
 —, percutaneous intravenous, single-arm technique, 127
 —, retrograde, without catheterization, 198
 —, transumbilical, in newborn infants, 340
 Aphasia, anatomical aspects, 251*
 Apnoea after suxamethonium administration, mismanagement of, 268
 Apomorphine as emetic in acute poisonings, 124
 Arrhythmia, antazoline hydrochloride treatment, 297
 —, treatment, clinical and physiological effects, 228
 —, atrial fibrillation and rheumatic carditis, anatomical and clinical correlations, 3
 —, —, anticoagulant treatment, 298
 —, —, conversion to sinus rhythm by direct-current shock, 368
 —, —, direct surgical treatment, 298
 —, chronic atrial fibrillation, effect of ajmaline in, clinical pharmacological study, 368
 —, —, quinidine treatment, occurrence and mechanism of syncope, 95
 —, concealed ventricular extrasystoles, 297
 — in recent myocardial infarction, follow-up study, 163
 —, paroxysmal atrial flutter and fibrillation, polyuria in, 298
 —, quinidine polygalacturonate in, 95
 —, ventricular tachycardia and fibrillation, prevention by intravenous isoprenaline and adrenaline, 25
 — with vasopressors during halothane anaesthesia, 125
 Arsenic poisoning, medicinal, and lung carcinoma, 376
 Arteries, bronchial, and anastomoses in lung, 171
 —, cerebral, aneurysms and anatomical variation, 3
 —, coronary, *see* Coronary
 —, internal mammary, implantation and omental graft in multiple coronary occlusions, 96
 —, —, — for coronary heart disease, 27
 —, —, thoracic, ligation in chronic coronary disease, 162
 —, occlusive disease in hand due to occupational trauma, 122
 —, peripheral, occlusion, streptokinase perfusion in, biochemical and clinical effects, 302
 —, —, —, treatment, clinical and arteriographic results, and changes in peripheral blood and thrombolysis *in vivo*, 301, 302

- Arteries, pulmonary, stenosis, isoprenaline in evaluation, 367
 —, renal, stenosis, due to primary arteritis of aorta, 92
 Arteriography, haemodynamic changes during, 198
 — in demonstration and staging of bladder tumours, 200
 — of peripheral vessels, review and report of complications, 198*
 —, selective, in newborn infants, 340
 Arteriopathy, hypertensive, in poliomyelitis, 280
 Arteriosclerosis, senile, nylidrin hydrochloride in, 389
 Arteritis, giant-cell, relation to polymyalgia rheumatica, 302
 —, primary, of aorta, causing renal artery stenosis and hypertension, 92
 Arthritis, *see also* Osteoarthritis; Polyarthritides
 —, association with ulcerative colitis, 224
 —, gonococcal, and Reiter's syndrome, comparative study, 148
 — of knee-joint, effect of various forms of physical therapy on clearance of radioactive sodium, 247
 —, rheumatoid, amino-acid content of serum in, 385
 —, —, anaemia of, evaluation, 232
 —, —, —, pathogenesis, 372
 —, —, and thyroiditis, association between, 245
 —, —, caput ulnae syndrome in, 317*
 —, —, cardiac lesions in, 133
 —, —, complete immobilization of joints in, 181
 —, —, corticosteroid therapy, long-term, 41
 —, —, —, practical and theoretical observations, 182
 —, —, electromyographic studies, 318*
 —, —, gold and chloroquine combined in treatment, 385
 —, —, immunopathology of, 317
 —, —, immunotherapy, 384
 —, —, in children, clinical and serological study of patients and their relatives, 181
 —, —, intra-articular hydrocortisone and prednisolone in, systemic effects, 41
 —, —, —, oemic acid in, 384
 —, —, intramuscular prednisolone trimethyl acetate in, use and complications, 182
 —, —, KB-95 treatment, 246
 —, —, lung changes in, 61
 —, —, O and L agglutinins in, 181
 —, —, of cricoarytenoid joint, clinicopathological study, 110
 —, —, pericarditis in, 41
 —, —, psoriasis and, 317
 —, —, radiological assessment of therapeutic effects, 245
 —, —, relation of Sjögren's syndrome to, 110
 —, —, renal lesions in, 3
 Arthrogryposis, lower motor neurone deficit in, electromyographic study, 42
 Ascariasis, triclofenol piperazine treatment, 356
 Aschoff body, origin of, 342
 Ascites formation during sodium retention in cirrhosis, local factors in, 154
 — in myxoedema, 107
 —, significance of aldosterone antagonism in treatment, 73
 Ascorbic acid and adrenal cortical function in old age, 108
 — level in blood in psychiatric patients, 114
 Aspergillosis in leukaemia, 169
 Asphyxia neonatorum, influence of anaesthesia on, 338
 Aspirin, uricosuric effects in gout, 318
 Asthenia, general, without myasthenia, anticholinesterase tolerance in, 253
 Asthma allergens, analysis of 5,187 cases, 219
 —, allergic, quantitative inhalation challenge in, 83*
 —, bacterial hypersensitivity in, 18
 —, chronic, aerosol steroid treatment, 219
 —, —, in children, dexamethasone phosphate powder inhalation in, 219
 —, —, prolonged corticosteroid therapy in, 83
 — in children and corticosteroid therapy as influence on growth, 83
 — — —, bacterial allergy in, effect of vaccine treatment, 357
 — — —, effects of desensitization to bacterial allergens in, 151
 —, infectious, in children, γ -globulin treatment, 53
 —, mebropendrylamine treatment, 357
 — relief by oiling of bedding, 288
 —, seasonal, in Melbourne due to fungus spores in air, 288
 —, simple lung function tests in, comparative efficacy, 288
 — sputum, immunochemical studies on, 288
 Ataxia and familial myoclonus, pathophysiological implications, 248
 —, vestibulo-cerebellar, hereditary syndrome with periodic manifestations, 248
 Atherosclerosis and hypercholesterolaemia produced by diet rich in shellfish, 289
 —, aortic, correlation between radiological and pathological diagnoses, 62
 —, blood coagulation in, effect of ingestion of fat, carbohydrate, and protein on, 364
 —, cerebral, diabetes and, 388
 —, coronary, in malignant hypertension, 98
 — diagnosis by Kunkel phenol test, 92
 — in coronary and cerebral arteries, correlation of extent and severity, 275
 — diabetes mellitus, 178
 — obliterans and peripheral neuropathy of lower extremities, 225
 — of cervical and cerebral arteries, collateral circulation of brain and, 131
 Atomic-bomb explosion, thyroid carcinoma after exposure to, 176
 Autoantibodies in liver and blood diseases, 65
 Autoantibody, erythrocytic, detection by Coombs and bromelin tests, comparison, 342
 Autoimmune phenomena in pernicious anaemia, serological overlap with thyroid diseases and systemic lupus erythematosus, 307
 Autoimmunity in development of liver disease, 292
 Automobile accidents in New York City, 336
 Autoradiography, *in vivo*, for multiple-organ cancer screening, 62
 Aversion conditioning treatment in chronic alcoholism, 394
 Azepinamide in diabetes mellitus, jaundice as complication, 244
Bacillus subtilis inhibition assay technique in detection of phenylketonuria, 115
 Bacteria, Gram-negative, and free colloidal haemoglobin, synergistic toxicity, 235
 Bacteriuria, simplified quantitative methods of detection, 6
 Ballistocardiography with simultaneous intracardiac catheterization, 94
 Barbiturate poisoning, severe acute, osmotic diuresis and alkalization of urine in, 337
 —, treatment of 271 cases, 337
 Barium meal, effect of volume on radiological examination of small intestine, 199
 Basophil degranulation test, indirect, for allergy to penicillin and other drugs, 210
 B.C.G. control of primary tuberculosis in children and adolescents in Montreuil, 13
 — overdosage, isoniazid treatment, 351
 — prevention of tuberculosis in adolescence and early adult life, 214
 — vaccination by multiple puncture, 13
 —, dermatological complications, 326
 Beat knee, aetiology and pathology, 56
 Behaviour disorders in mentally subnormal children, chlorpromazine and trifluoperazine treatment, 323
 Bell's palsy, familial aggregation, 248
 Bendrofluazide in oedema of varying aetiology, comparison with meralluride, 334
 Benzene poisoning, chronic, effect of fibrinogen and platelets on thromboelastogram in, 196
 Benziodarone, effect on response to anticoagulants, 299
 Benzthiazide in oedema, clinical trials, 138
 N-Benzyl-N':N''-dimethylguanidine in hypertension, 165
 Benzylpenicillin with methicillin or oxacillin, combined action against *Staph. aureus*, 9
 Berylliosis with silicosis, clinical picture, 195
 Betamethasone enemata in ulcerative colitis, 22
 Bicarbonate loss in cholera, mechanism, 355
 Biguanides in diabetes in pregnancy, effect on foetus, 382
 Bilharziasis, *see* Schistosomiasis
 Bilirubin, *see* Hyperbilirubinaemia
 "Biloptin" as medium in cholecystography, 64
 Birth control, *see* Contraception
 — weight, low, effect on mental ability and behaviour of 7-year-old children, 45
 Bladder neck dysfunction, cinefluorographic investigation, 411
 — tumours, arteriography in demonstration and staging, 200
 Blindness, congenital, with polycystic kidneys, 173
 Blood, arterial, gas tensions in acute disease of lower respiratory tract in infancy, 330
 —, —, oxygen saturation after operation, 266
 —, capillary, glucose determination in, evaluation of reliability, 131
 — circulation, *see* Circulation
 — coagulation and platelet survival, effect of smoking on, 129
 — in atherosclerosis, effects of ingestion of fat, protein, and carbohydrate on, 364
 — — — ischaemic heart disease, 162
 — — — malignant disease, and post-operatively, 231
 — —, oral contraception and, 31
 — diseases, antinuclear factor and other antibodies in, 65
 — flow, cerebral, during halothane anaesthesia, 406
 —, hepatic, in liver tumours, 363

- Blood group antibodies, Lewis, temporary suppression to permit incompatible transfusion, 235
- antigen Webb of low frequency in two Australian families, 2
- , anti-Xg^a, second example of, 332*
- , Gc system, application in paternity cases, 337
- , Xg, and familial hypogammaglobulinaemia, 332*
- platelet concentrates, fresh, transfusion in secondary thrombocytopenia, 101
- platelets, effect on thromboelastogram in chronic benzene poisoning, 196
- pressure, *see also* Hypertension; Hypotension
- and reactivity to cold-pressor test, re-examination after 27 years, 164
- changes in old age, relation to cardiovascular status, 364
- , effect of gallamine triethiodide on, 407
- in bacterial shock, 225
- , inferior vena caval, changes during anaesthesia, 267
- variations in hypertensives during sleep, 164
- , proteolytic activity in pancreatitis, 221
- sampling, effect of posture and position of venous sampling site on haematocrit and serum protein concentration, 201
- serum protein concentration, effect of posture and position of venous sampling on, 201
- viscosity in rheumatic diseases, relation of serum proteins and rheumatoid factor to, 179
- , stored, addition of α -tocopherol to reduce haemolysis and prolong erythrocyte survival time, 235
- transfusion, exchange, in fresh-water drowning, 404
- , intraperitoneal, in newborn infants, 328
- , umbilical venous, carbon dioxide content, effect of anaesthetics during caesarean section on, 407
- vessels, great, intrathoracic occlusion causing cerebrovascular insufficiency, 319
- , —, transposition, correction of, diagnosis, 295
- , —, — with and without atrial septal defect, prognosis, 92
- response of feet to dihydrogenated ergot alkaloids and tolazoline, 303
- , synovial, sclerosis of, 134
- Body size and measurements, relation to smoking habits, 120
- weight and type, relation to coronary atherosclerotic disease in men, 28
- Bone changes in vitamin-D-deficiency rickets, relation of parathyroid function to, 84
- collagen turnover in, urinary hydroxyproline as index of, 19
- fluorescence, tetracycline-induced, clinical and laboratory study, 328
- marrow biopsy in diagnosis of pyrexia of undetermined origin, 273
- gas tensions and blood flow, effect on erythropoiesis, 306
- in chronic myeloid leukaemia, cytogenetic studies, 274
- iron content, influence of age on, 306
- Brain, *see also* Angiography; Cerebrovascular; Electroencephalography; Encephalitis; Meningitis
- , acquired toxoplasmosis of, with tumour-like course, 185
- Brain aneurysm, histopathological study, 131
- arterial disease, diabetes and, 388
- atrophy, unilateral, electroencephalographic findings in, 184
- blood flow during halothane anaesthesia, 406
- cavitation after ventricular punctures in infants, complication of pneumoventriculography, 194
- , cerebrum, in disseminated sclerosis, distribution of plaques in, 67
- changes after cerebral accident, relation to motor function, morphological study, 2
- circulation, *see* Circulation
- death after severe head injury, 202
- during artificial respiration, 202
- dysfunction in infants, changing pattern, 401
- , encephalitogenic factor isolated from, biological properties, 387
- , endoscopic exploration, 319
- function, effect of fluorine in drinking water on, 121
- haemorrhage, massive, clinical and pathological correlations, 387
- infarction, aetiological factors, 387
- injury, perinatal, relation to periodic vomiting in children, 330
- lesions, left parietal lobe, stuttering in, 384
- , pulmonary oedema and, 387
- , right temporal lobe, perception of unfamiliar stimuli with, 185
- mass decrease by hypertonic mannitol solution, 185
- metabolism, effect of "indoklon" on, 209
- reactivity, assessment by double-stimulation electroencephalography, 111
- stem tumours in adults, 186
- stones, 389
- subdural haemorrhage into cranial cavity in newborn, 49
- temperatures in rabbit during electrical anaesthesia, 266
- tissue, localized and reversible cooling in functional studies, 250
- tumour, cystic, and blood-brain barrier, comparison of protein fractions in cyst fluid and serum, 201
- , electroencephalogram in, 249
- , location by scanning with radioactive chlormerodrin, 62
- , posterior fossa, in infants and children, 339
- , —, pneumographic appearance, 408
- Breast carcinoma, advanced, comparison of 2,17-dimethyl testosterone and fluoxymesterone in, 279
- Breath-holding seizures, mechanism, 400
- Breathing, *see* Respiration
- Bromine disinfection of swimming-pools, 402
- "Bromsulphalein", maximal hepatic removal rate, 89
- Bronchiectasis, bacteriological tests and antibiotic treatment, 374
- Bronchiole carcinoma, clue to uni- or multi-centricity, 376
- proliferation and metaplasia in pulmonary thromboembolism, 66
- Bronchitis, acute exacerbation, treatment, 171
- , chronic, ampicillin and tetracycline in, comparison, 103
- , —, diagnosis of emphysema in, 33
- , —, fatal cases, 103
- , —, in catarrhal children, 310
- , —, isoprenaline in, trial of different methods of administration, 375
- Bronchitis, chronic, lung carcinoma and, relation between, 376
- , —, mucous-gland hypertrophy in, 133
- , —, nikethamide for severe carbon dioxide retention in exacerbations, 103
- , —, prednisolone treatment, 375
- , —, prevalence in heterozygotes for gene for fibrocystic disease of pancreas, 374
- , —, size of bronchial glands in, 69
- , —, sputum bacteriology in, 135
- , —, sweat chloride in, relation to mucoviscidosis, 310
- , hypercapnic, dichlorophenamide treatment, 172
- , post-mortem bronchographic study, 409
